

## **Paly Robotics Boosters**

Robotics competitions mix the excitement of sport with the demands of science and engineering. Every year Paly Robotics participates in several highly visible and acclaimed FIRST Robotics competitions. Team 8's robot is designed, built, and programmed entirely by Paly students.

**Your support for Team 8 will provide students with many opportunities for collaboration and leadership, as well as promote STEAM education at Paly.**

Paly Robotics Boosters is a non-profit organization that raises money to support Team 8. We rely on parents' donations and corporate sponsors to maintain the excellence of this program.

All money goes directly to the team to help purchase robot parts, materials, machines, computers, and software, as well as pay for competition fees and scholarships.

You can make a tax-deductible donation (EIN 61-1682088) online at <http://palyrobotics.com/donate> or attach a check to this form.

Support Levels:

- \_\_\_\_\_ \$10.00 *Safety goggles and tools*
- \_\_\_\_\_ \$25.00 *Game pieces (Cubes, Gears, Totes, etc.)*
- \_\_\_\_\_ \$50.00 *3-D printer supplies*
- \_\_\_\_\_ \$75.00 *Robot parts and Electronics*
- \_\_\_\_\_ \$100.00 *Scholarships for competitions*
